“Getting Ready for Carbon Pricing Policies: Challenges and Opportunities for the Energy Sector”
Santiago, Chile
November 5th, 2014

Carbon Pricing around the World: Existing and Scheduled Regional, National and Sub-national Carbon Pricing Instruments

State of Carbon Pricing Initiatives: Highlights

- ◆ The reach of carbon pricing is steadily increasing

Globally, about 40 countries and over 20 sub-national jurisdictions have implemented or are scheduled to implement carbon pricing instruments, including emissions trading systems and taxes.

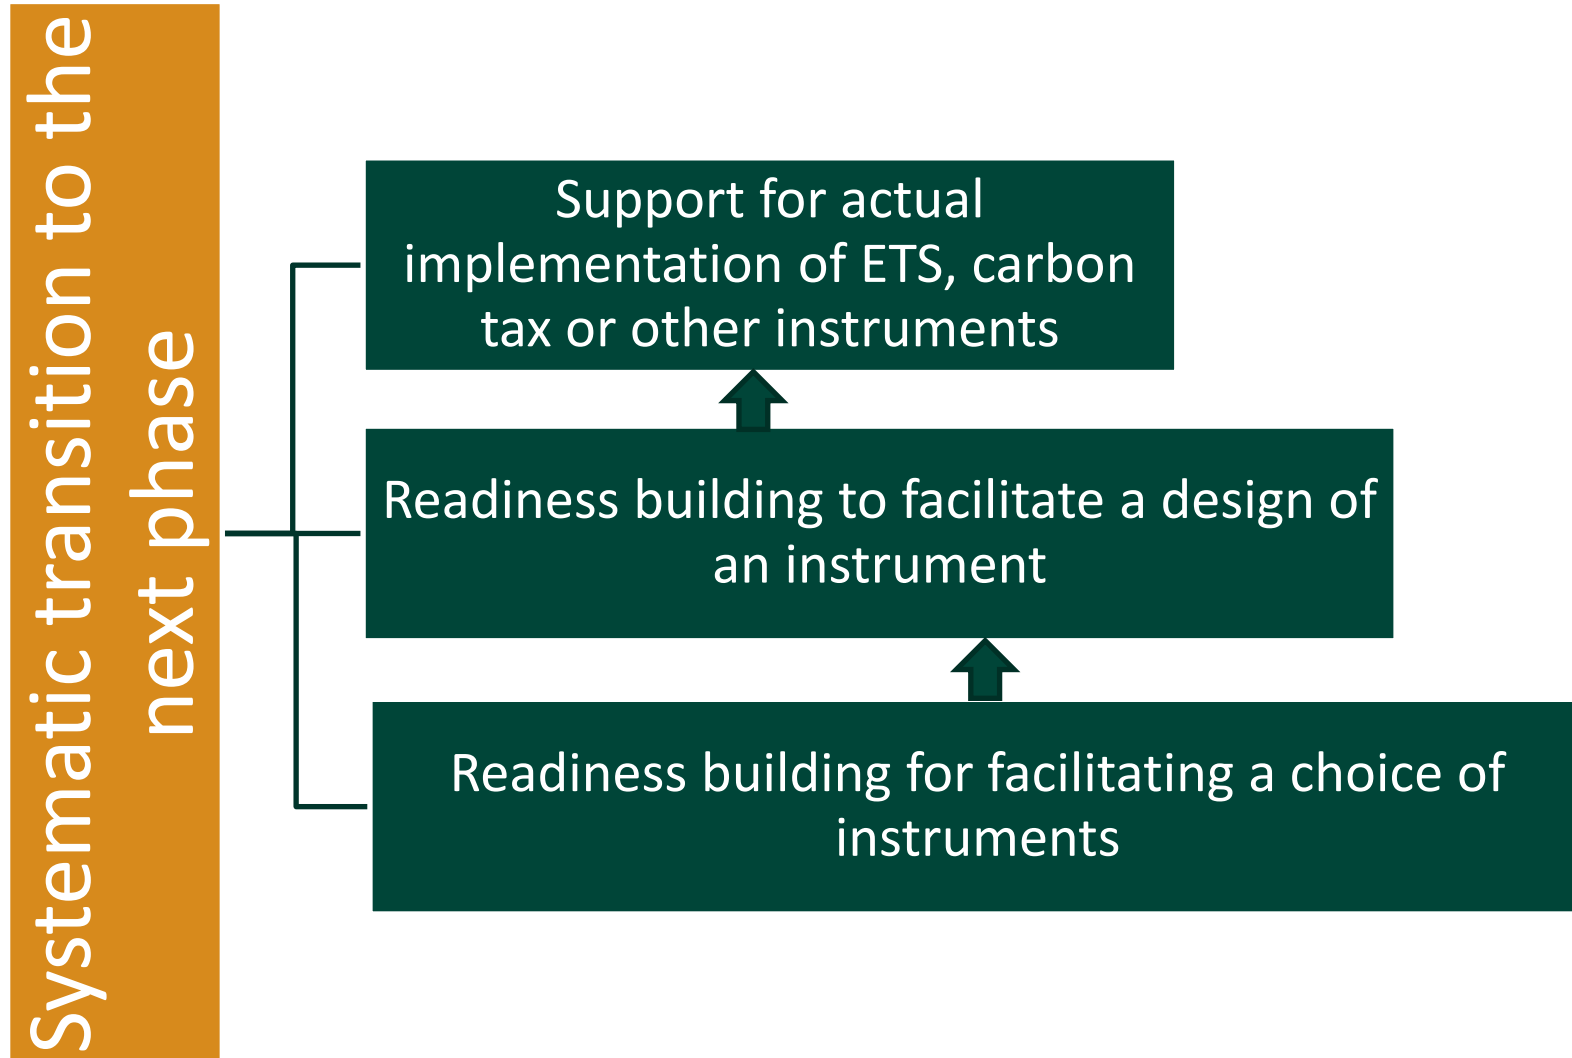

PMR: A Global Partnership for Global Action

Implementing Country Participants			Contributing Country Participants (US\$127 million mobilized)	
Brazil	Indonesia	Thailand	Australia	Netherlands
Chile	Jordan	Tunisia	Denmark	Norway
