PMR’s Technical Work Program: Update on FY18 Activities and Plan for FY19

Daniel Besley
Coordinator, Technical Work Program
PMR Secretariat
World Bank

18th PMR Partnership Assembly
Kyiv, Ukraine
April 24-26, 2018
Outline

- Activities completed in FY18
- Activities underway and planned for FY19
- Activities under consideration for FY19 and beyond
Establishing scaled-up crediting program baselines under the Paris Agreement: Issues and options

Two case studies on the development of South Africa’s MRV system
Activities in FY18 - publications

- Translating the *Carbon Tax Guide* into French and Spanish
Activities in FY18 - publications

- State and Trends of Carbon Pricing 2017 and 2018

- China Carbon Market Monitor Q3 2017
Workshop at Innovate4Climate Conference in Frankfurt, May 2018 in partnership with CPLC

Getting the message right: how to effectively communicate carbon pricing

- Will explore key principles and approaches for effective engagement on carbon pricing for both government and business communications. Workshop will contribute to the development of a guidebook to be released late 2018.
Activities underway & planned for FY19 – publications

- Guide on communicating carbon pricing in partnership with CPLC
- Technical Note on verification and accreditation systems
- Technical Note on emissions measurement
Activities underway & planned for FY19 – publications

- Technical Note on use of revenue
- Guide to developing crediting systems
- Working with Ci-Dev, TCAF and CPF to share experiences and lessons learned about climate finance and crediting.
- Translate the BPMR Readiness Training Guide (and videos) into Mandarin
Activities underway & planned for FY19 – training

- Development of a comprehensive online course on carbon taxation in partnership with UNITAR.
- Development of a face-to-face training course on carbon taxation with UNITAR.
- Potential ETS training in Mexico
- Potential carbon tax training in Ivory Coast
Activities underway & planned for FY19 – workshops

- Workshop on using carbon revenues.
  - Time TBD. PA19?
Firstly, please respond to the survey on communicating carbon pricing!

Continue to use working groups in FY19:
- ETS working group
- Carbon tax working group
- Offsets and Crediting working group
- MRV working group

Need to update working group contacts.

Representatives can be nominated to participate in the working groups at any time
Activities under consideration (FY19 and beyond)

- Re-vamping the e-learning course on ETS design
  - Based on ETS guide

- E-learning course on crediting
  - Based on crediting guide

- Integrate courses into a carbon pricing curriculum.
  - Could do in partnership with UNITAR and CF Assist.

- Above work based on popularity / demand
Activities under consideration (FY19 and beyond)

Please take 5 minutes to complete the survey sheet
PMR’s Policy Analysis Work Program: Update on FY18 Activities and Plan for FY19

Daniel Besley
Coordinator, Policy Analysis Work Program
PMR Secretariat
World Bank

18th Meeting of the PMR Partnership Assembly
Kyiv, Ukraine
April 24-26, 2018
Key Points

- Currently no further funding under the Policy Analysis Work Program.

- Focus is on completing the remaining 7 country projects
  - 5 to be complete by the end of FY18
  - 2 to be complete by end FY19

- Program level activities can be considered as part of the Technical Work Program
## Country projects in FY18 and FY19

<table>
<thead>
<tr>
<th>Country</th>
<th>Description</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chile</td>
<td>Modeling of policy options and developing implementation plan for NDC in energy sector</td>
<td>Completed in FY18</td>
</tr>
<tr>
<td>Colombia</td>
<td>Macro-economic modeling of carbon pricing instruments</td>
<td>Completed in FY18</td>
</tr>
<tr>
<td></td>
<td>Modeling of ETS design options and design roadmap</td>
<td>Completed in FY18</td>
</tr>
<tr>
<td>Costa Rica</td>
<td>Developing modeling framework, database, and technical capacity for exploring decarbonization pathways to achieve NDC target</td>
<td>Completed in FY18</td>
</tr>
<tr>
<td>Morocco</td>
<td>Bottom-up model with focus on the building sector (2030). Rapid assessment of potential carbon pricing options</td>
<td>Ongoing; expected to be complete FY18</td>
</tr>
<tr>
<td>Turkey</td>
<td>Marginal Abatement Cost curve tool (linked with CGE under MRP activity); Investors’ perspective approach</td>
<td>Ongoing; expected to be complete FY18</td>
</tr>
<tr>
<td>Vietnam</td>
<td>Bottom-up energy model (power, industry), and Marginal Abatement Cost curve tool (2050)</td>
<td>Ongoing; expected to be complete FY19</td>
</tr>
<tr>
<td>Thailand</td>
<td>Economic modelling of carbon pricing instruments including carbon tax, ETS and crediting mechanism to contribute to Thailand’s NDC mitigation goal.</td>
<td>Ongoing; expected to be complete FY19</td>
</tr>
