**Reference Expression of interest Partnership for market
readiness(PMR)
Dear Ms Chassard**

We welcome the world Bank's initiative to address the potential and challenges of market mechanisms in the future climate framework, with this communication, I would like to reiterate the interest of our government in the Partnership for Market Readiness (PMR) with the aim to enhance our capacity to identify the best approaches to address mitigation measures in our country.

We see a great opportunity under PMR to address some specific needs and find innovative instruments to enhance private and public sector participation We have identified some areas in which we consider the PMR could help us going ahead in strengthening the capacity of energy and waste sectors to participate in scaled up market options. Those have been identified in NEED study with the UNFCCC.

We look forward to continuing working with you in the partnership, and we will be glad to answer any question or comment on the information provided in the format.

Best regards,,,

Dr. Taher R. Shakhashir

Minister of Environment
