Dear Ms. Chassard,

In addition to our letter dated 17.02.11 #351/13/9, please consider an updated expression of interest as formal application from Ukraine for participating in the Partnership for Market Readiness.

We reconsidered section 5 of the expression of interest and specified one market instrument that Ukraine is seeking from PMR, in particular an institutional, legal and expert support in order to develop and implement a national (local) emission trading market.

Best regards,

Head

Sergey Orlenko
