The Clean Energy Future Package

Emission reduction policies in uncovered sectors

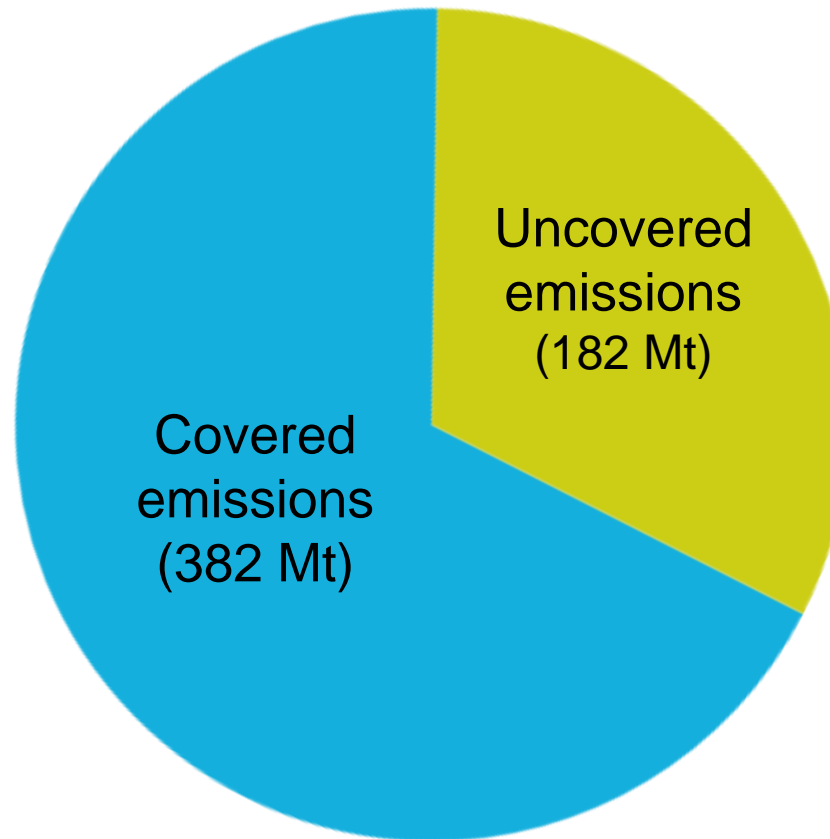

Coverage of the carbon pricing mechanism

0.025%

of actively trading businesses will have direct liability for around

60%

of domestic emissions covered by the carbon pricing mechanism

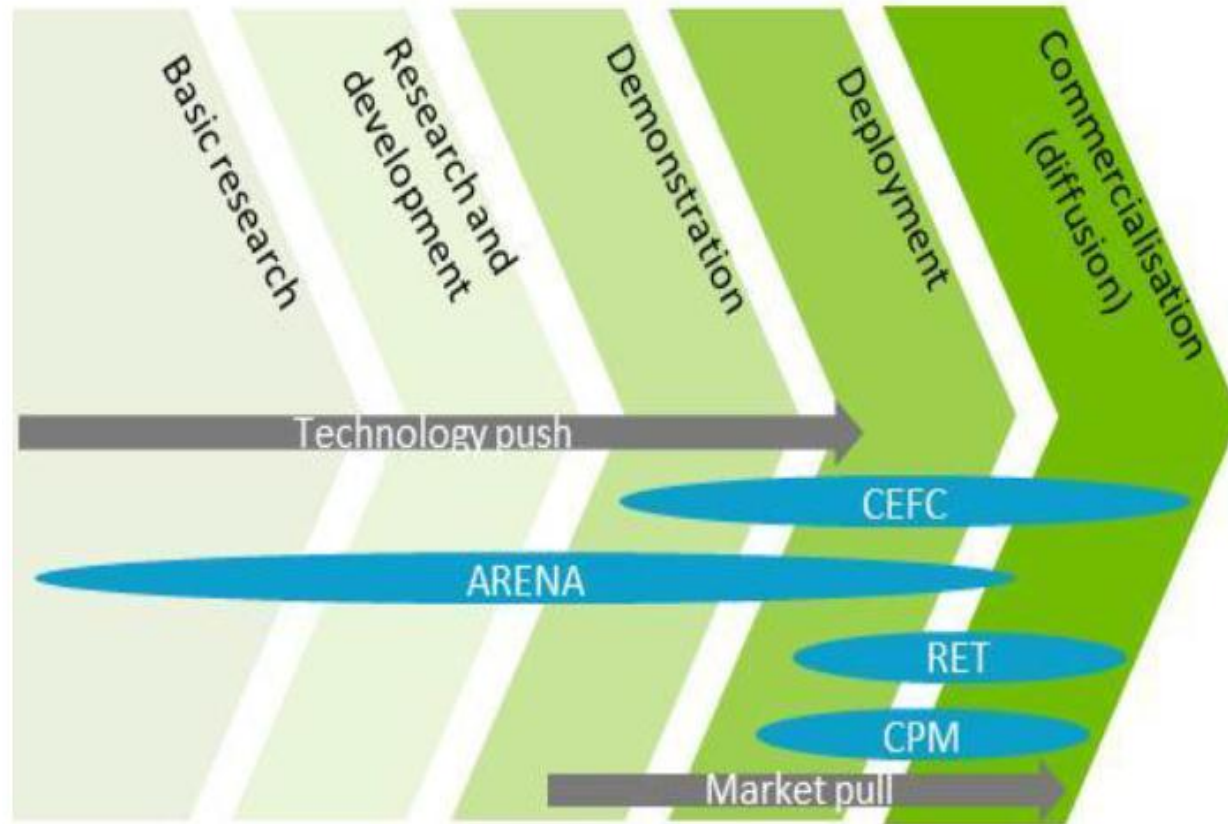

Uncovered sectors include:

- Agriculture, forestry and fishing
- On-road and light transport
- Legacy industrial processes
- Land use
- Legacy landfill waste

Renewable Energy Target (RET)

Investment in research and development
