Revenue recycling and distributional effects of carbon pricing

Dr. Brigitte Knopf (MCC)

23. October 2019, Berlin

BMU-ICAP-PMR High-level Event

Use of Revenues from Carbon Pricing

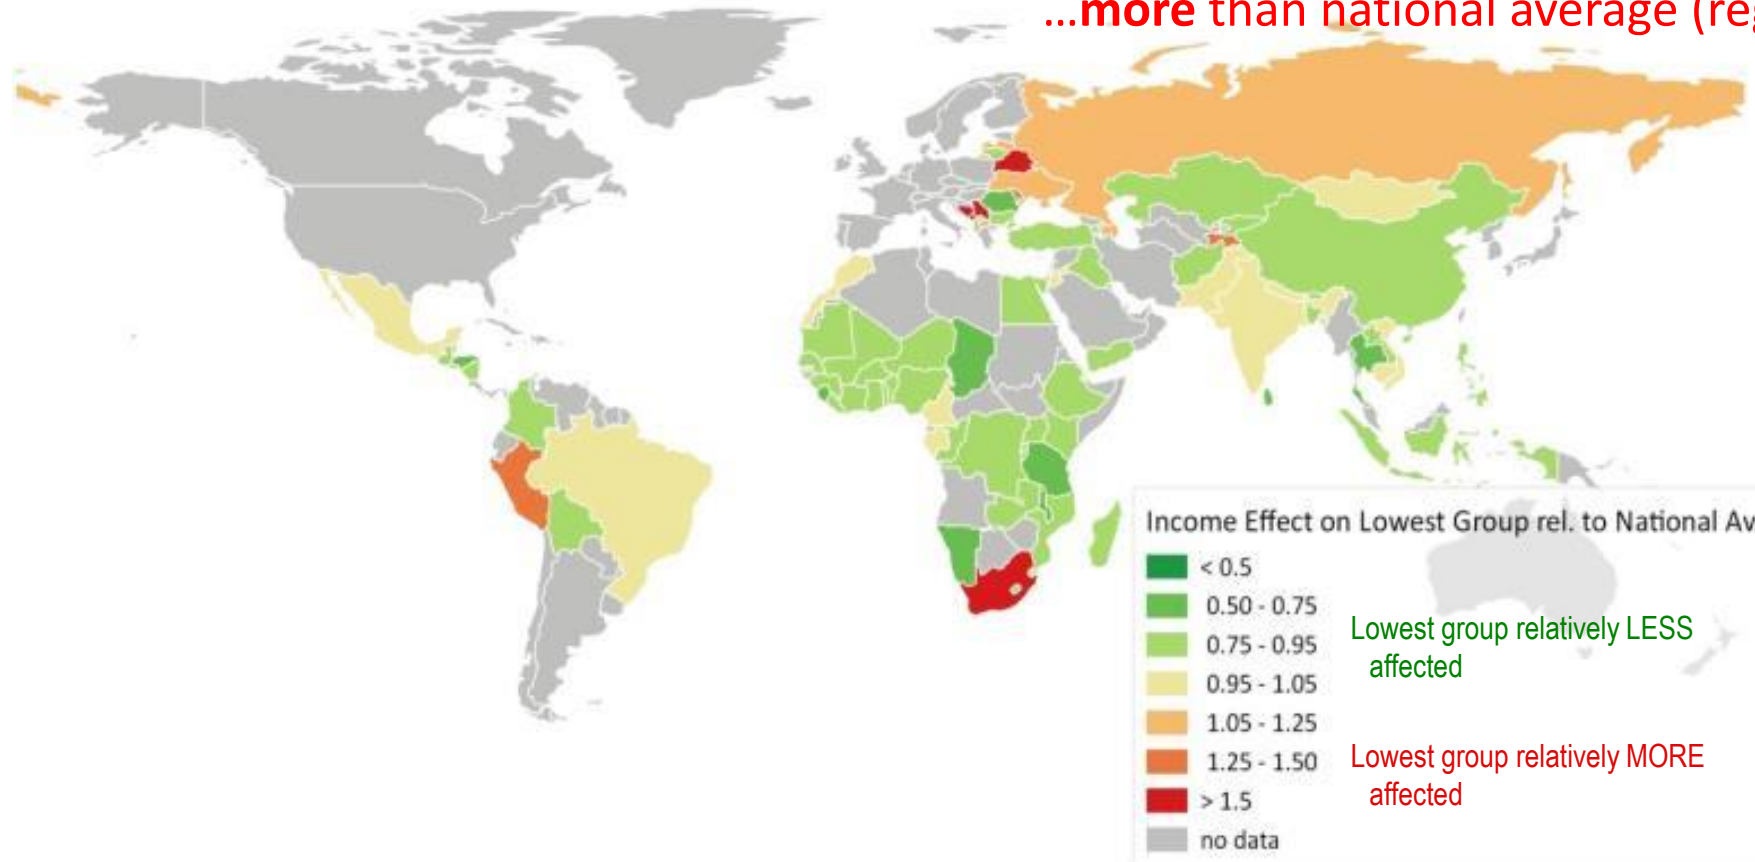

Distributional effects of national carbon pricing on households

A carbon tax would impact the poor...

...**less** than national average (progressive)

...**more** than national average (regressive)

Competitiveness effects: Expected economic effect of a global carbon price

Assumption of a global uniform price of 50 \$/tCO₂
