

UPDATE ON MRP IMPLEMENTATION

Thailand

PA9 meeting

Activities undertaken

- Consultation with World Bank Thailand
- Preparation of concept package in particular Integrated Assessment Framework (IAF)
- Integration and transformation of MRP
- Preparation for EPC & LCC stakeholder consultation

Integration and transformation of MRP

6 Components + Project management

- 1) Legal framework for establishing Emission Trading Scheme (ETS) and amendment required for Energy Performance Certificate scheme (EPC)
- 2) Data management and study on Specific Energy Consumption (SEC)
- 3) Development of MRV system
- 4) Development of guidelines for Personnel Responsible for Energy (PRE) and Energy auditors, Capacity building for PRE & Energy auditors
- 5) Potential GHG emission reduction from LCC program, Local GHG abatement plan and guideline
- 6) Pricing mechanism for EPC unit and LCC-TVER, Source of fund and Incentive for LCC-TVER buyer
- 7) Project Management

Other activities related to PMR

- MoU signing ceremony between TGO and 3 pilot municipalities to prepare GHG inventory was organized at the end of April 2014.

- TGO in collaboration with World Bank organized TRACE workshops for 2 municipalities.

Tentative timeline
